

INTRODUCING

L'equi Rumen Complete Pro-Biotic

“This disease is a fire., If you don't act quickly, the consequences can spread uncontrollably.”

FOOT AND MOUTH DISEASE.

A Crisis Facing South African Farmers.

Foot-and-Mouth Disease is currently placing **severe strain on herds of cattle and flocks of sheep** across South Africa, threatening productivity, income, and long-term farm sustainability.

- Is your farming operation under pressure?
- Are rising losses affecting cash flow and stability?
- Is uncertainty impacting your family and workforce?

A supportive, practical intervention is available

INTRODUCING

L'equi Rumen Complete Pro-Biotic.

Produced **exclusively in South Africa**, for **South African farmers**, and developed for **local farming conditions**, L'equi Rumen Complete Pro-Biotic is designed to **restore and support livestock health and recovery** during periods of disease-related stress, including FMD outbreaks.

Product formulation.

L'equi Rumen Complete Pro-Biotic is formulated using:

- **100% pure, natural, organic, enzymatic bacterial concentrate.**
- **No chemical or synthetic ingredients.**
- **Non-toxic and residue-free.**

The formulation is intended to **support gut health, immune function, and overall animal resilience**, with no known adverse side effects when used as directed.

What farmers may observe.

When applied in accordance with the recommended protocol, farmers have reported **measurable improvements in animal condition, appetite, and functionality**, often within 18–31 days, depending on circumstances.

Results may vary based on disease severity, farm management practices, and compliance with the protocol.

A practical, farmer-focused approach:-

- **No injections**
- **No vaccinations**
- **No discarded syringes or medical waste**

Animals are **dosed orally**, supporting recovery and stabilisation as part of an **integrated farm management and biosecurity strategy**.

A **detailed application protocol**, together with experienced guidance, is available to assist farmers in implementing the **correct first steps** toward restoring productivity and operational stability.

Time matters.

Early, informed intervention can play an important role in **limiting ongoing losses and supporting recovery**.

Algjem Global Trading (Pty) Ltd.
Cape Town, South Africa.

The sustainability of the farmer is fundamental to the sustainability of agriculture.

Remember: The Farmer is far more important than any politician.

All products are derived from **virgin soil sources** and are **non-toxic, child-safe, pet-friendly, and supportive of pollinators such as bees**.

Regulatory & Legal Disclaimer.

L'equi Rumen Complete Pro-Biotic is **not a vaccine** and **does not claim to cure, treat, or prevent Foot-and-Mouth Disease (FMD)**.

The product is intended to **support animal health, digestive function, and recovery**, and to assist in maintaining livestock resilience as part of a **broader disease management and biosecurity programme**.

This product should be used **in conjunction with**, and **not as a replacement for**, veterinary advice, statutory disease control measures, and regulations prescribed by the **Department of Agriculture, Land Reform and Rural Development (DALRRD)**.

All statements are based on **field application experience and formulation characteristics** and are **not intended as medical or veterinary claims**.
Results may vary.
